Excellence in Electronics Manufacturing & Project Management

Eltel, a well-established company with a strong reputation in the Defense industries, is proud to present its subsidiary OFEQ – an advanced manufacturing center for electronics and mechanical assemblies, located in Ofaqim.

Core Areas of Expertise

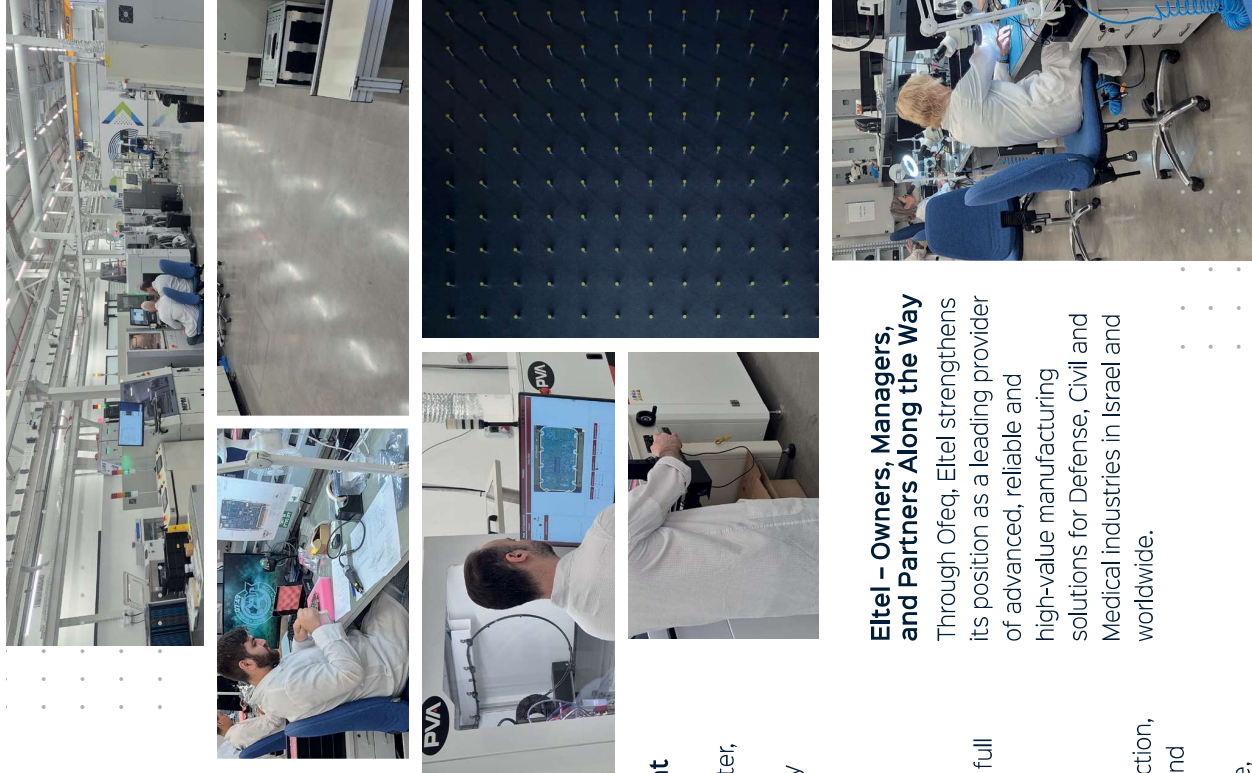

- Full Turnkey (FTK) Electronic Manufacturing: SMT, electro-mechanical assembly, wiring and cables.
- Testing and Integration: ICT, Flying Probe, J-Tag, HASS.
- Advanced Solutions for Defense, Civil, and Medical industries.

Competitive Advantage – Managed by Eltel

With decades of proven experience leading projects for Defense and High-Tech organizations in Israel,

Eltel offers its customers a complete end-to-end solution through OFEQ:

- Management – Engineering –
- Procurement – Quality –
- Manufacturing – Logistics.

Infrastructure and Advanced Equipment

- State-of-the-art SMT production lines.
- Testing equipment: X-Ray, AOI, Coating, Router, Washing.
- ERP System (Priority) for process and Supply Chain Management.

Standards and Quality

- ISO 9001, AS 9100 (during 2026).
- IPC 610 / 620.
- Rigorous quality control, NPI processes and full Traceability Assurance.

Human Capital

- Approximately 100 skilled professionals in Engineering, Quality Assurance, SMT Production, Assemblies, Soldering, Wiring, Technicians and Practical Engineers.
- An organizational culture built on excellence, integrity, teamwork and personal responsibility.

Eltel – Owners, Managers, and Partners Along the Way

Through Ofeq, Eltel strengthens its position as a leading provider of advanced, reliable and high-value manufacturing solutions for Defense, Civil and Medical industries in Israel and worldwide.
